

Wriggle Valley Transport Working Party

We are continuing to explore the options in relation to providing some form of Community Transport after 24th July when the existing bus service will be withdrawn.

However, it is clear from our preliminary discussions with the General Manager for South Somerset Community Transport, that we need to establish the likely demand in order to progress things. As such we have designed a simple survey form and this is available at <https://www.surveymonkey.co.uk/r/2V2GJ9K> . Alternatively you can use the link which has been posted on the Yetminster Village Facebook pages and on the Parish Websites.

It would therefore be helpful if anyone affected by the loss of bus service could complete the survey. If you don't have access to the internet (or if you know of anyone who doesn't have access) then please contact WVTG member John Howes 07989018436 and he will arrange for a form to be made available.

It would also be good to have "bus users" on the working group so if you would like to get involved please contact us on 07941518772 or at wvtgbus@gmail.com.
